Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 29 September 2006.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

1. Applicant's response filed on 09/29/2006 has been fully considered. The claim objections and the 35 USC 103 rejection have been withdrawn in view of Applicant's amendments and comments.
2. Claims 1 and 5-7 are amended, claim 2 is canceled and claims 1 and 3-7 are pending.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Ito et al. (US 4,778,782).
5. Ito discloses a transferable sheet comprising a substrate and a dye receptive layer on the substrate (abstract). The substrate comprises a core material and a synthetic paper of cellulose fiber paper, a plastic film or a laminate thereof provided on a front and a back surface of the core material (Fig. 2 and col. 2, line 31). The synthetic paper is white and opaque (col. 3, line 44). A detection mark is provided on the surface of the core material of the substrate (col. 18, line 17).

Claim Rejections - 35 USC § 103

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claims 3-7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ito et al. (US 4,778,782), as applied to claim 1, above, in further view of Oshima (US 6,688,789 B2).

8. Ito does not disclose a detection mark that is used in the claimed invention. Oshima teaches the use of a detection mark substantially identical to the claimed invention (see at least Sample 13 in Fig. 12 of Oshima), wherein the detection mark inherently possesses the claimed electromagnetic radiation absorbing and electromagnetic radiation emitting value. At the time of the invention, it would have been obvious to a person of ordinary skill in the art to combine the detection mark of Oshima with the invention of Ito so as to provide detection mark capable of exhibiting high response (col. 9, lines 57 of Oshima).

9. With respect to claims 6 and 7, the criticality of the claimed method of identification and image forming apparatus has not been provided in the current specification, thus the method of identification and the image forming apparatus are conventional.

Response to Arguments

10. Applicant's arguments with respect to claims 1 and 3-7 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

11. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

12. A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

13. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Betelhem Shewareged whose telephone number is 571-272-1529. The examiner can normally be reached on Mon.-Fri. 8:00AM-4:30PM.
